adds unique flavour and style to the mesoamerican nations. Lots of variety in units and models for only \$6. Good purchase.. just wait until its on sale if you have such a problem with putting a little more money into an already amazing game.. The music this adds is by far the best part of this. The new unit skins are really nice as well. But there's really no point in getting this unless you plan on playing as the Inca, maya, or aztecs. But if you do plan on playing as one of them you will definitely want this.. paradox is just milking me for my money. The new Unit Models look pretty sweet. (even the Jaguar warrior in his pajama/pyjama.)

The Music is good aswell, but i would recommend to wait for a Sale if you are still in the balance.. "Settlement" sounds like something out of Hearthstone.. They really need to add this to the nation designer otherwise its a waste.. Awh, you didn't add Potiguara! (My favorite South American Tribe, though which I like to take over Portugal) Rude.. It appears that Paradox is deleting my negative review of this game. Criticism is not allowed it seems. As so. I have decided to give the whole game and DLC a negative review

Waiting to purchase as a gift on sales and then this happens, so i'm making official claims as they didn't have the guts to make one.
