### About This Game

Titanic: The Game takes place aboard the R.M.S. Titanic on her fateful maiden voyage across the Atlantic. The player's avatar is a young socialite, Margaret Ashley, one of the fortunate unfortunates who sailed on Titanic and survived. Throughout the course of the game, Margaret is presented with sets of puzzles and obstacles that she must overcome to progress the timeline from April 10th - the date Titanic left Southampton Dock - to the 15th, when she sunk beneath the waves.

You learn that humans built a very large ship to brag about themselves. But was it enough for them to have bragging rights for completing it? or Titanic had to be the safest ship ever just because she was as big as a hill? Upon finishing this point&click style hidden object game in which you play as a young ma'am except bonus level, you learn why it would have had to be remembered as a sad story with one way or another.
